PROJECT TITLE: Abengoa Mojave Solar Project

<input checked="" type="checkbox"/> Telephone	(916) 441-6850	<input type="checkbox"/> Meeting Location:	
NAME:	Christopher Dennis	DATE:	6-15-2010
		TIME:	4:00 pm
WITH:	Robert Wagner, P.E., Principal for Wagner & Bonsignore, consultants for the Mojave Basin Area Watermaster		
SUBJECT:	BAP and FPA of the Proposed Abengoa Mojave Solar Project		

COMMENTS:

Mr. Wagner provided edits to the draft table of AMS project Base Annual Production (BAP) and Free Production Allowance (FPA) that will be included in staff’s rebuttal testimony. The table incorporates an existing Watermaster imposed 20 percent ramp down in the FPA. We discussed the likelihood of further ramp downs, and Mr. Wagner thought an additional 20 or 30 percent ramp down was possible at some point in the future. The goal of the Mojave Basin Area Adjudication is to bring water levels to within 5 percent of safe yield as defined by the adjudication. He said that until this goal is reached, further ramp downs would occur.
