

DOCKET 09-0II-1
DATE <u>JUL 19 2010</u>
RECD. <u>JUL 22 2010</u>

July 19, 2010

California Energy Commission
Dockets Office, MS-4
Re: Docket No. 09-OII-1
1516 Ninth Street
Sacramento, CA 95814-5512

To Whom It May Concern,

GreenHomes America is very supportive of the proposal by the Ad Hoc Committee to add furnaces and air-conditioners to the California State Energy Efficient Appliance Rebate Program.

GreenHomes America has both company-owned and franchisee residential contracting businesses across the state from San Diego through the Bay Area. We've seen a downturn in retrofits including high-efficiency equipment replacements over the past two years due to the difficult economic situation and tight credit markets that homeowners are facing. The changes proposed are consistent with the ARRA funding and will help encourage much needed upgrades.

We encourage the Commission to adopt these changes with all due haste.

Sincerely,

A handwritten signature in black ink that reads "Brett Knox".

Brett Knox
President
GreenHomes America
