To Whom It May Concern,

ASI Hastings is very supportive of the proposal by the Ad Hoc Committee to add furnaces and air-conditioners to the California State Energy Efficient Appliance Rebate Program.

ASI Hastings has both company-owned and franchisee residential contracting businesses across the state from San Diego through the Bay Area. We've seen a downturn in retrofits including high-efficiency equipment replacements over the past two years due to the difficult economic situation and tight credit markets that homeowners are facing. This changes proposed are consistent with the ARRA funding and will help encourage much needed upgrades.

We encourage the Commission to adopt these changes with all due haste.

Sincerely,

Ken Justo
