NAME:	Andrea Koch	DATE: 7/19/10
WITH:	Andrew Young, Planner III, Alameda County Planning Department (510-670-6555)	
SUBJECT:	Proposed GreenVolts Project	

PHONE CONVERSATION: Mr. Young stated that the initial proposal for the GreenVolts solar facility in Alameda County involved a short construction period and a minimal amount of traffic during both construction and operation. The project was being revised, but Mr. Young expected that the revised project would generate similar levels of traffic as the previously proposed project. He told me that he would e-mail me the Draft Initial Study for the initially proposed project (and he did).
