[Response to Invitation to be Signatory and Consulting Party in the Development of the Programmatic Agreement for the Calico Solar Project (08-AFC-13), San Bernardino County, California]

Dear Ms. Trost,

I am in receipt of your March 30, 2010 invitation to California Energy Commission staff to become an Invited Signatory to a Programmatic Agreement (PA) currently under development among the Barstow Field Office of the Bureau of Land Management (BLM), as lead Federal agency, the California State Historic Preservation Officer, and the Advisory Council on Historic Preservation (Council) for the proposed Calico Solar Power Project in San Bernardino County. I understand the PA to be the primary means by which the BLM intends to meet its obligations under Section 106 of the National Historic Preservation Act (NHPA; 16 U.S.C. § 470f) and under the regulations that implement Section 106 (36 C.F.R. § 800) to take into account the effects of the subject project or undertaking on historic properties and to afford the Council a reasonable opportunity to comment on the undertaking.

The BLM has chosen to resolve the potential adverse effects of the subject undertaking on historic properties in accordance with part 800.14(b)(1)(ii) of the federal regulations, where the effects of a project on historic properties cannot be fully determined prior to approval of the undertaking. I understand, on the basis of part 800.6(c)(2)(i), which follows from part 800.14(b)(3), that an Invited Signatory shall have all the same rights with regard to seeking amendment or termination of the PA as the other Signatories to the agreement.

I would like to take the opportunity here to clarify, for the public record, the distinction between the Energy Commission proper and Energy Commission staff. The Energy Commission is the impartial decision-making body that considers testimony or comments from the applicant, Energy Commission staff, interveners, and members of

the public as it develops decisions on matters before it. Energy Commission staff, an independent party, provides the Energy Commission with analyses and recommendations to which the Energy Commission is not bound. With regard to the development of the subject PA, Energy Commission staff will participate in the negotiation of the document and will sign it. The participation of Energy Commission staff in the Section 106 process will not conflict or interfere with the independent decision-making authority of the Energy Commission or its obligation to comply with State law.

Under these terms, I, Terrence O'Brien, on behalf of the Siting, Transmission, and Environmental Protection Division staff of the California Energy Commission, accept the invitation to become an Invited Signatory to the PA for the proposed Calico Solar Project. I appreciate the opportunity and intend, through my designees Sarah M. Allred and Michael McGuirt, to participate earnestly in the development and implementation of the agreement. Energy Commission staff hopes that its participation in the Federal Section 106 process will further the goals set out in the *Memorandum of Understanding between the U.S. Department of the Interior, Bureau of Land Management, California Desert District, and the California Energy Commission Staff Concerning Joint Environmental Review for Solar Thermal Power Plant Projects* to avoid duplication of staff efforts, to promote intergovernmental coordination, and to facilitate public review.

Sincerely,

TERRENCE O'BRIEN, Deputy Director
Siting, Transmission, and Environmental
Protection Division
