**Re: IVANPAH SOLAR ELECTRIC GENERATING SYSTEM**

**(Docket Number 07-AFC-5)**

To whom it may concern,

I am writing as a concerned member of a science class at Saint Leo University in Florida. We studied the proposal in class, and I personally question your rationale in approving the Ivanpah Solar Electric Generating System (ISEGS) project. The project, even with the mitigation measures described in the Decision Report, will have remaining significant impacts on the environment that out weigh the benefits.

I feel that it is horrible that the tortes' are being killed by coyotes and oil leak from BP. On the other hand it creates jobs for many people who are hurting for work. For big company giving jobs to out of work workers and the big companies give certain Research and Development to look in to solar energy which will also create jobs for out of work people.

Sincerely yours,

Chris Cappuccilli
