Re: IVANPAH SOLAR ELECTRIC GENERATING SYSTEM

(Docket Number 07-AFC-5)

To whom it may concern,

I am writing as a concerned member of a science class at Saint Leo University in Florida. We studied the proposal in class, and I personally question your rationale in approving the Ivanpah Solar Electric Generating System (ISEGS) project. It's tragic that the tortoise are being killed. Why should they be killed because of the issues with our land. We should be figuring out the problem with going to war. You tell me which one makes more sense. We need to find the people who are willing to fix this proplem by using the money to do something that will make a change. We have to find a way to mkoove these tortoise and be able to build these solar panels to help our country out as much as possible. That way no one is unhappy and this can become a win, win situation.

Sincerely yours,

Andre Swain
