As part of the September 29, 2010, Business Meeting, the Energy Commission will consider adopting revisions to the *State Energy Program Guidelines* (Guidelines). These Guidelines were developed to help implement and administer specific program areas funded by the State Energy Program (SEP) under the American Recovery and Reinvestment Act (ARRA) of 2009.

At the direction of the Energy Commission's Federal Stimulus Program (ARRA) Committee, proposed changes have been made to the Guidelines clarify the applicable interest rate charged under the Low-Interest Energy Efficiency Financing Program (EEFP). The EEFP is one of several program elements funded under the Energy Commission's State Energy Program. The EEFP will provide up to \$25 million in ARRA SEP funds as low-interest loans to eligible applicants for energy efficiency and/or renewable energy projects that provide energy cost savings sufficient to repay the loan principal and all accrued interest within a maximum repayment term of 15 years.

The ARRA Committee is also proposing other minor clarifying changes to the Guidelines. All revisions to the Guidelines are noted in underline and strikeout font in the Committee Draft version of the Guidelines revisions.

The ARRA Committee recommends the Committee Draft version of the Guideline revisions be adopted by the Energy Commission. The Committee Draft version of the Guideline revisions is available online at <http://www.energy.ca.gov/stimulus/documents/index.html> .

Hard copies of the Committee Draft version of the Guidelines may be obtained by contacting Gigi Tien by phone at (916) 651-0566 or by email at [ [gtien@energy.state.ca.us](mailto:gtien@energy.state.ca.us) ].
