Mr. Hoffman:

I would like to voice concerns for myself and also for my neighbor Jane Peterson.

Our concerns are as follows:

We feel that our community the proposed plant is posing to built upon has been overlooked. The surrounding counties and communities have been compensated and catered to at our expense.

- 1) What does the Mariposa plant acquire in return for their compensation to these entities?
- 2) What does the community of Mountain House (not the Mountain House Town) get in return for dealing with a plant that is 2/10ths and beyond, in our visual and sound range. The devaluation of property, depleting range land, ranching/farming community turned into industrial type property isn't what the community stands for.

Mrs. Peterson had not even been informed of the project until a neighbor informed her about it one month ago.
