*The City of Benicia strongly supports the Energy Commission's proposed RP3 program (Docket No. 02-REN-103) .*

*City staff is currently working to finalize a \$12 million project to install ground- and carport-mounted photovoltaic arrays at 10 City operations sites.*

*Planning for the project has been complex, and the City could certainly have benefitted from the type of assistance contemplated under RP3.*

*We thank the Commission for its attention to the need for RP3 and hope to be able to take advantage of the program in the future.*
