Subject: Proposed Oakley Power Plant (Docket # 09-AFC-4)

I am writing you to voice my opposition for the proposed power plant PG&E would like to construct. I live in the Big Break area of Oakley. I do not want a power plant literally in my backyard. I find it very convenient that this matter is being discussed on March 15th at 10:00 am, when most people are at work and unable to attend. Oakley is a city for young families, this power plant will increase asthma, lung cancer and decrease the overall health of Oakley. It is obvious that PG&E is trying get a ruling passed before July 1st 2011 when they will be subjected to new more stricter federal EPA permit regulations. I think with PG&E's recent history they need to be held to the strictest standard possible.

Thank you for your time,
Sincerely,

Paula Flud
