Mr. Jim Woodward
California Energy Commission
1516 Ninth Street MS-20

Dear Sir:

Azusa is hereby re-filing its 2009 Form S-2 to more accurately reflect Azusa's past and projected power resources. We realized that clarification and re-filing of this S-2 was necessary as we became aware of its use as a major source document for GHG modeling in California.

Additionally, although CEC does not require Azusa to submit 10-year plans, Azusa is including its 2009 10-year plan in this re-filing to provide yet more clarity on its future power supply plans.

The California Energy Commission has been great to work with in the power supply area and we look forward to a quick acceptance of this document.

If I can provide any further information or assistance to you in this matter, please let me know.

Sincerely,

Yarek Lehr
Assistant Director of Resources Management
