Application for Certification for the
Willow Pass Generating Station Project

Docket No. 08-AFC-6

**FIFTEENTH STATUS REPORT OF
GENON WILLOW PASS, LLC**

In accordance with the Committee Scheduling Order dated December 31, 2008, the applicant in this proceeding, GenOn Willow Pass, LLC (“GenOn Willow Pass”), submits its fifteenth status report in this proceeding. GenOn Willow Pass is seeking certification for the Willow Pass Generating Station, a 550 megawatt, natural gas-fired electricity generating facility to be located in Pittsburg, California.

As reported in previous status reports, GenOn Willow Pass has worked with Pacific Gas and Electric Company (“PG&E”), the previous owner of the project site, to prepare a work plan for conducting additional soil gas sampling at the project site. On behalf of PG&E, AMEC Geomatrix prepared the *Work Plan for Focused Site Investigation and Focused Health Risk Assessment*, which was submitted to Commission staff on June 14, 2010. The work plan addresses staff’s Data Requests 73 through 75 and provides for collection of soil vapor and groundwater samples and preparation of a focused Health Risk Assessment that includes a Human Health Risk Assessment and a Screening Level Ecological Risk Assessment.

Based on several recent conversations, GenOn Willow Pass is aware that staff is reviewing the work plan and evaluating other topic areas to determine how best to proceed with review of the project. GenOn Willow Pass appreciates these efforts and will continue to work with staff with the goal of moving the project forward.

March 30, 2011

Respectfully submitted,

Lisa A. Cottle
