

Defenders of Wildlife petitions to intervene in the proceedings for the Calico Solar Project due to potential adverse impacts to at-risk plants and animals and their habitats that may occur as a result of modifications to the project proposed by the project developer in a petition to the California Energy Commission dated March 22, 2011.

Defenders of Wildlife is a national environmental organization founded in 1947 with 950,000 members and supporters in the U.S., 145,000 of who reside in California. Defenders of Wildlife is dedicated to protecting all wild animals and plants in their natural communities. To this end, we employ science, public education and participation, media, legislative advocacy, litigation and proactive on-the-ground solutions in order to prevent the extinction of species, associated loss of biological diversity, and habitat alteration and destruction.

Defenders of Wildlife wishes to participate fully in the proceedings for the proposed modifications to the Calico Solar Project in the same manner it did during previous proceedings on this project.

Defenders of Wildlife was an active party in the Calico Solar Project proceedings and wishes to continue such involvement. We petition to continue our involvement as an organization represented by two employees as noted above, who are also organization members.

5. Petitioner agrees, does not agree that if a document is served upon me via email, an additional paper copy by mail is not necessary.
