Subject: Calico Solar Project Amendment: Committee Determination Regarding Data Requests

Mr. Jackson:

This email is in reference to your May 8, 2011, request for approval to propound data requests on Calico Solar, LLC (Calico). The Committee finds that you have established good cause to propound the following data requests:

Soil and Water Resources: 1, 2, 3, 4, and 5

Traffic and Transportation: 6 and 12

Public Health and Safety: 18, 19, 20, 21, 22 (a) - (f), and 23

The relevance of proposed Traffic and Transportation data requests 7, 8, 9, 10, 11, 13, 14, 15, 16, and 17 to this amendment proceeding is not readily apparent to the Committee. Accordingly, you may not propound those requests at this time. You may, however, explain to the Committee in writing how these requests specifically relate to the Petition to Amend as distinguished from the currently approved Calico Solar Project.

The Committee further finds that your proposed cover letter to Calico appropriately provides Calico with 30 days to provide written responses and 20 days to alert the Committee and parties with any concerns about the requests.
