

Agenda for IEPR Staff Workshop on Benefits Assessment

Energy Research and Development Division
California Energy Commission

May 19, 2011

Begins at 9:30 am

Hearing Room A – Sacramento, CA

Morning

The purpose of the PIER Benefits Assessment Workshop is to provide input to the preparation of the *2011 Integrated Energy Policy Report (IEPR)*, which will be based on discussions of the methods related to the PIER Program's ongoing benefits assessments: economic benefits from PIER RD&D, environmental benefits from PIER RD&D, and grid security/reliability benefits.

9:30 am Introduction to this IEPR Workshop and Opening Comments –
Asst. Executive Director, Suzanne Korosec, Integrated Energy Policy Report Unit

9:40 am Welcome to the PIER Benefits Assessment Workshop –
Deputy Director, Laurie ten Hope, Energy Research and Development Division

9:50 am The PIER Program's Benefits Assessment Activities –
Adrienne Kandel, Jean Baronas and Vanessa Kritlow, PIER Benefits Group

10:25 am PANEL: Ongoing RD&D benefits assessments used by other state and federal agencies and research organizations –
Moderator - Jean Baronas, PIER Benefits

❖ ICF International, Overview of Oregon, Iowa, Massachusetts, and Wisconsin, Benefit Assessment Activities and Introduction of the panel questions
Rick Tidball, Senior Consultant

Panel questions:

Question 1: What benefit assessment activities has your organization undertaken?

Question 2: What did you measure?

Question 3: How has your organization addressed attribution (public and private sector)?

Question 4: What are your future plans for benefits assessment?
