## DOCKET

**11-IEP-1J**

DATE May 09 2011

RECD. May 26 2011

May 9, 2011

Robert B. Weisenmiller, Chairman  
California Energy Commission  
1516 9<sup>th</sup> Street  
Sacramento, CA 95814

Dear Chairman Weisenmiller:

On behalf of Pacific Gas and Electric Company (PG&E), I am writing to request an extension in the deadline for data submission in response to the Energy Commission's IEPR "Nuclear Power Plant-Related Data" request for Docket No. 11-IEP-1J.

In addition to the heightened focus many on the Diablo team have placed on securing permits for the three-dimensional seismic surveys and other work recommended by the Commission in its final "Assessment of California's Nuclear Power Plants: AB 1632 Report," many of the contributors to this data response are currently working the 2R16 refueling outage on DCP Unit 2 scheduled to be concluded by June 2, 2011.

An extension of the May 23, 2011, deadline to June 10, 2011, should allow us adequate time to complete the data response in a thorough manner. If we are able to complete the work early, we will submit it in advance of the extended deadline.

Please do not hesitate to contact me at (916) 995-6827 if you have questions regarding this request.

Sincerely,
