**RE: Application for Confidentiality—San Diego Gas and Electric
Company (Addendum)
Electricity Retail Demand Forecast Forms
Docket No. 11-IEP-1C**

Dear Mr. Szymanski:

A portion of San Diego Gas and Electric Company's (SDG&E) application for confidentiality for data submitted as part of the *2011 Integrated Energy Policy Report* proceeding received at the Energy Commission on May 4, 2011, was not explicitly addressed in my initial letter of response, dated May 23, 2011.

Specifically, SDG&E requested that the following data in Form 1.5 be designated as confidential: distribution area peak demand for 1-in-5, 1-in-10, 1-in-20 and 1-in-40 temperature scenarios for forecast years 2011 through 2022.

SDG&E's application states, in part:

In the 2007 IEPR proceeding, docket number 06-IEP-11, and in 2009 IEPR, docket 09-IEP-1C the Commission designated this same information as confidential for a period of three years. In this proceeding, SDG&E is requesting identical treatment for substantially the same information that the Commission has already deemed confidential.

SDG&E's confidentiality application makes a reasonable claim to grant confidentiality for the information identified above based on the trade secret exemption to the California Public Records Act. (Gov. Code, § 6254 (k).) The information will remain confidential through December 31, 2013.

Persons may petition to inspect or copy the records that I have designated as confidential. The procedures and criteria for filing, reviewing, and acting upon such petitions are set forth in the California Code of Regulations, title 20, section 2506. Finally, an appeal of this decision must be filed within fourteen days from the date of this decision. The procedures and criteria for appealing any part of this decision are set forth in the California Code of Regulations, title 20, section 2505.
