**NOTICE OF DETERMINATION
PETITION TO MODIFY
THE GENERAL ARRANGEMENT OF THE PROJECT SITE
FOR THE CPV SENTINEL ENERGY PROJECT
(07-AFC-3C)**

DOCKET	
07-AFC-3C	
DATE	Jun 29 2011
RECD.	Jun 29 2011

A petition was filed on June 6, 2011 with the California Energy Commission by CPV Sentinel, LLC, requesting to modify the CPV Sentinel Energy Project. The 850-megawatt project was certified by the Energy Commission on December 10, 2010, and began construction on June 1, 2011. The facility will be located near Desert Hot Springs, in Riverside County.

DESCRIPTION OF PROPOSED MODIFICATIONS

The modifications proposed in the petition would change the general arrangement of project components. A number of structures are changing location within the 37 acres of the original site. In some cases, project components are changing in size. A new 49-foot-tall wastewater collection tank is proposed to replace the two 40-foot-tall ZLD evaporator towers within the wastewater treatment area.

ENERGY COMMISSION STAFF REVIEW AND DETERMINATION

Pursuant to section 1769(a)(2), Title 20, California Code of Regulations, “(w)here staff determines that there is no possibility that the modifications may have a significant effect on the environment, and if the modifications will not result in a change or deletion of a condition adopted by the commission in the final decision or make changes that would cause the project not to comply with any applicable laws, ordinances, regulations, or standards, no commission approval is required...”

Energy Commission staff has determined that approval by the full Commission is not required and the proposed modifications meet the criteria for approval at the staff level because:

- The modification will not have any significant effect on the environment;
- Existing conditions of certification are sufficient to cover the proposed modification without changes to, or deletions of, any conditions of certification; and
- The project as modified will maintain full compliance with applicable LORS.

Any person may file a written objection to staff’s determination within 14 days of the date of this notice on the grounds that the project modification does not meet the criteria set forth in Section 1769(a)(2). All objections must be in writing and must be sent either by U.S. mail, e-mail, or other document delivery service to Dale Rundquist, Compliance Project Manager, at the address shown below:

California Energy Commission
1516 9th Street, MS 2000
Sacramento, CA 95814

Comments may be submitted by fax to (916) 654-3882, or by e-mail at **drundqui@energy.state.ca.us**. If no substantive objection is received in writing, the requested project modifications will be deemed approved.

For further information on how to participate in this proceeding, please contact the Energy Commission Public Adviser's Office, at (916) 654-4489, or toll free in California at (800) 822-6228, or by e-mail at publicadviser@energy.state.ca.us. News media inquiries should be directed to the Energy Commission Media Office at (916) 654-4989, or by e-mail at mediaoffice@energy.state.ca.us.

If you have questions about this notice, please contact Dale Rundquist at (916) 651-2072, or by fax or e-mail using the above information.

Date: June 29, 2011
