---

Dear Commissioners,

I wholeheartedly urge you to act on the concerns communicated to you by the Alliance for Nuclear Responsibility.

I am particularly interested in asking the Dept. of Energy's blue ribbon committee to come to California and explain why it is prudent to have nuclear waste storage - that will last for many years after the reactors at Diablo Canyon are decommissioned - in a known seismically active area for such a long period of time.

I urge to use your official power to do the right thing to protect our people from the unthinkable damage that would result from a seismically activated nuclear emergency.

Thank you,

Debbie Highfill

Morro Bay, Ca

Evacuation Zone 9, Diablo Canyon Nuclear Power Plant.
