**Re: BRP Steam Project Petition to Amend**

Dear Ms. Stora:

Bottle Rock Power LLC ("BRP") submitted a petition to amend the existing BRP license in September 2009. Through a joint process with County of Lake and Bureau of Land Management an Environmental Impact Report and Environmental Assessment was produced for the expansion of the BRP steam field known as the BRP Steam Project. The results of the environmental reviews and the subsequent mitigations under applicable agencies of jurisdiction indicate that no changes to the BRP power plant will be required to support the expansion of the well field.

BRP respectfully requests that the Petition to Amend be withdrawn. Additionally BRP requests written documentation that no changes are required to the existing license for operation up to the rated output of the plant with existing conditions of certification that are in place as a result of the BRP Steam Project.

Please contact me with any questions.

Respectfully,

A handwritten signature in black ink that reads "Brian Harms".

Brian Harms  
General Manager
