DOCKET	
11-IEP-1J	
DATE	<u>AUG 01 2011</u>
RECD.	<u>AUG 01 2011</u>

August 1, 2011

Dear Commissioners:

I am writing to let you know of my concerns related to the San Onofre Nuclear Power Plant and how its continued operation effects the health and welfare of the citizens of San Clemente and neighboring communities. I am concerned that the SONGS plant was designed for a quake 7.0 but sits on a fault capable of a much larger quake.

I am concerned that radioactive waste that is currently in temporary storage is a danger to the local citizens.

It has been brought to the public attention that SONGS provides only 7.5% of California's energy needs. This is a situation of diminishing returns, what SONGS provides is overshadowed by the dangers to the 8.4 million people living within the fifty mile radius of the plant. These are the people who would be effected if there were a nuclear accident.

Please take into consideration that I am concerned and want close monitoring of the SONGS plant. It is public knowledge that it has ten times more safety violations than all 104 nuclear plants in the USA.

Thank you,

Rebecca Robles
