Subject: San Onofry Nuclear Power Plan

As a coastal resident of Laguna Beach, just a few miles north of this Plant, please consider my request to terminate operations at the San Onofry Power Plant in Southern California.? With its proximity to the ocean, high density population centers, and earthquake country, it would be a travesty if this plant should fail due to any natural disaster or unforeseen accident.? The negative outfall would be at least as devastating as what has been seen in Japan, if not worse.? This is my personal opinion and plea, and has no bearing or relation to the business represented shown on this message.

Sincerely,
John Garakian
