This comment form is being furnished to obtain suggestions and information from other agencies and the public on the scope of issues and alternatives that will be addressed in the joint EIR/EIS. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public.

### Comments

Verbal comments not heard. Stood in line for 30+ minutes @ 2 stations without being provided opportunity to discuss issues. Felt more like a stakeholder meeting rather than a public scoping meeting. The public wants to be heard, not asked to write comments. Generally, dissatisfied.
