## Investment Plan Overview

- The Energy Commission is required to develop and adopt the Investment Plan.
- The Investment Plan determines the priorities and opportunities for the ARFVT Program.
- The Investment Plan must be revised annually.
- The Energy Commission must create and consult with an Advisory Committee as it develops its Investment Plan.

## FY 2012-2013 Investment Plan

- A draft must be posted “concurrent with the submittal of the Governor’s Budget” (January 10)
- The final version must be adopted “concurrent with... the Governor’s May Revision.” (May 2012)
- First Investment Plan “update” (AB 1314, Wieckowski)
  - Relies on comprehensive analyses in previous Investment Plans
  - Shorter, more concise allocation of funding

## FY 2012-2013 Investment Plan, cont.

- Advisory Committee will be reconvened for the development of the FY 2012-2013 Investment Plan
  - We will be soliciting applications for new members
  - First meeting will be held after the release of the first draft (January)
  - At least two meetings will be conducted prior to Investment Plan's adoption
- Public docket
  - Now open for comment
  - Instructions: <http://www.energy.ca.gov/2011-ALT-1/background.html>

## New Ideas and Considerations

- Programs to match biofuel supply with biofuel demand
- Integrated centers focused on expanding alternative fuels and advanced technology vehicles
- Emphasis on economic development and manufacturing
- How to sustain incentive funding for expanding numbers of alternative fuel vehicles?

## New Ideas and Considerations, cont.

- Regional readiness planning for alternative fuels
- How to focus funding for alternative fuel infrastructure?
- How to develop open, competitive solicitations for emerging opportunities in innovative technologies, advanced fuels, and federal cost-sharing projects?
