Project Title: Battery Charger System and Self-Contained Lighting Control Standards

Project Location (include county): Statewide

Project Description:

The project amends state appliance efficiency regulations by establishing efficiency standards and other requirements for newly manufactured battery charger systems and self-contained lighting controls sold in the state. The record for this project and the proposed regulations, which are the project for purposes of the study, are available at the Commission's website at http://www.energy.ca.gov/appliances/battery_chargers/documents/.

This is to advise that the California Energy Commission has approved the above described project on

☒ Lead Agency or ☐ Responsible Agency

January 12, 2012

(Date)

and has made the following determinations regarding the above described project:

1. The project ☐ will ☒ will not have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures ☐ were ☒ were not made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan ☐ was ☒ was not adopted for this project.
5. A statement of Overriding Considerations ☐ was ☒ was not adopted for this project.
6. Findings ☐ were ☒ were not made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at: California Energy Commission, 1516 Ninth Street, Sacramento, CA 95814

CEQA Filing Fee No Effect Determination Form

Applicant Name: California Energy Commission **Date Submitted:** October 19, 2011
Applicant Address: 1516 Ninth Street, Sacramento, CA 95814

Project Name: Battery Charger System and Self-Contained Lighting Controls Standards

CEQA Lead Agency: California Energy Commission
CEQA Document Type: (ND, MND, EIR) Negative Declaration
SCH Number and/or local agency ID number: SCH#2011102014

Project Location: Statewide

Brief Project Description: The California Energy Commission is proposing to adopt regulations, including efficiency standards, for large and small battery chargers systems for inclusion in the Appliance Efficiency Regulations, Sections 1601-1608, of Title 20 of the California Code of Regulations (CCR). The proposed regulations cover both consumer and non-consumer battery charger systems, as those terms are defined in federal law, in a tiered approach and will apply to small battery charger systems that are consumer products manufactured on or after January 1, 2013, and apply to small battery chargers systems that are non-consumer products and to all large battery charger systems manufactured on or after January 1, 2017. This rulemaking also includes clarifications and/or corrections to the existing Appliance Efficiency Regulations based on the inclusion of these new standards. The proposed regulations for battery charger systems include measurement of power consumption in active mode, maintenance mode, and no battery mode; power factor for larger battery charger systems; and labeling, marking, and certification requirements. The Energy Commission also proposes to adopt regulations for self-contained lighting controls, currently found in Title 24 of the CCR, as appliance standards in the Appliance Efficiency Regulations. The proposed standards for self-contained lighting controls will have an effective date of January 1, 2013.

Determination: Based on a review of the Project as proposed, the Department of Fish and Game has determined that for purposes of the assessment of CEQA filing fees [F&G Code 711.4(c)] the project has no potential effect on fish, wildlife and habitat and the project as described does not require payment of a CEQA filing fee. This determination does not in any way imply that the project is exempt from CEQA and does not determine the significance of any potential project effects evaluated pursuant to CEQA.

Please retain this original determination for your records; you are required to file a copy of this determination with the County Clerk after your project is approved and at the time of filing of the CEQA lead agency's Notice of Determination (NOD). If you do not file a copy of this determination with the County Clerk at the time of filing of the NOD, the appropriate CEQA filing fee will be due and payable.

Without a valid No Effect Determination Form or proof of fee payment, the project will not be operative, vested, or final and any local permits issued for the project will be invalid, pursuant to Fish and Game Code Section 711.4(c)(3).

DFG Approval By: Leslee Newton-Reed Date: 11-3-2011
