## Staff Workshop

### Appliance Efficiency Enforcement Rulemaking

The California Energy Commission Appliance Efficiency Program staff will conduct a public workshop to seek comments from interested parties regarding the establishment and implementation of an administrative enforcement process for the Commission's Appliance Efficiency Regulations, found in Sections 1601 through 1608 of Title 20 of the California Code of Regulations.

Prior to the workshop an agenda will be posted on the Commission's website at <http://www.energy.ca.gov/appliances/enforcement/>. This agenda will provide stakeholders with details regarding topics to be covered during the workshop, which the public is invited to attend and which will be held on:

**MARCH 23, 2012**

10 a.m. to 3 p.m.

CALIFORNIA ENERGY COMMISSION

1516 Ninth Street

First Floor, Hearing Room A

Sacramento, California

(Wheelchair Accessible)

**Purpose**

This staff workshop will provide industry, stakeholders, and the public the opportunity to comment on initial questions that will guide the Energy Commission in crafting an administrative enforcement process during the formal rulemaking process that will follow.

Based on the stakeholder feedback obtained through this workshop, and other relevant information identified by Energy Commission staff, staff will prepare and post, in late April 2012, a document setting forth the proposed rulemaking schedule. All parties are encouraged to submit information, recommendations, and/or proposals to pre-rulemaking docket number 12-AAER-1 to inform future workshop discussions during the formal rulemaking proceeding to follow.

## Agenda

A meeting agenda is attached, as well as a Request For Information document with a list of questions for consideration to guide the workshop discussion.

## Background

On October 8, 2011, Governor Brown signed Senate Bill 454 (Pavley, Chapter 591, Statutes of 2011), which adds Section 25402.11 to the Public Resources Code and provides the Energy Commission with the authority to issue citations and fines when provisions of the Appliance Efficiency Regulations are violated.

Specifically, the bill does the following:

- Authorizes the Commission to establish an administrative enforcement process to enforce the requirements of the Appliance Efficiency Regulations.
- Provides for the assessment of civil penalties by the court, or administrative penalties by the Commission for violations of the Appliance Efficiency Regulations.
- Requires that the penalties collected to be deposited into an “Appliance Efficiency Enforcement Subaccount” for use (when appropriated) for public education on appliance efficiency and for enforcement.
- Requires courts, when granting relief for a violation, to award the Commission’s costs incurred for investigating and prosecuting an action.

In order to implement the provisions in the bill, on January 12, 2012, the Energy Commission adopted an Order Instituting Rulemaking (OIR) to open a proceeding needed to establish the administrative enforcement process authorized by Public Resources Code section 25402.11.<sup>1</sup> This workshop is being held prior to the opening of the official rulemaking process.

## Written Comments

Please submit any written comments for discussion at the workshop by 5:00 p.m. Pacific Daylight Time (PDT) on March 21, 2012. Following the workshop there will be another written comment period, during which written comments may be submitted by 5:00 p.m. PDT on April 30, 2012. Please include the pre-rulemaking docket number 12-AAER-1 and indicate “Appliance Efficiency Enforcement Rulemaking” in the subject line or first paragraph of your comments.

The Energy Commission encourages comments by e-mail. Please include your organization’s name or your name in the name of the file. Those submitting attached comments by electronic mail should provide them in either Microsoft Word format or as a Portable Document Format (PDF) to [docket@energy.state.ca.us]. A paper copy may also be sent to the Energy Commission’s Docket Unit.
