Hi my name is Jessica Margarit, and I am a Santee resident with a family of small children, so the thought of a power plant being made in this small community of families, and elderly was horrifying. Especially because there is a beautiful park, Mission Trails that is right there in the mountains along with houses, schools, daycares, restraunts, and local shops, so please reconsider this being built so more pollution doesnt fill the lungs of this small beautiful community. Please consider the No Project Alternative that uses conservation as a strategy.

Thank you.
