DOCKET

11-AFC-3

DATE MAR 13 2012

RECD. MAR 13 2012

Hello,

I'm writing you to inform you of my strong opposition of the Quailbrush [power plant](#). This is being build less than 5 miles from my home. I'm disgusted that the city of San Diego is considering letting this be build less than a mile from schools and homes. People work hard to purchase homes, myself included. If this power plant goes in, I will be underwater even more so than I am now with little to no hope of even breaking even. I worked hard to purchase a home at a young age and this power plant would completely erase that.

Amongst other things, I'm also concerned at the level of ongoing noise I will have to deal with, traffic that will be caused by construction and the horrible pollution that will be spewing out. I was hoping to spend the majority of my lift in Santee and use my first home as leverage for saving for my future.

I never in a million years would have thought that the city could be so cruel as to try to find a loop hole and put this God awful power plant in Santee. Please, consider No Project Alternative that uses conservation as a strategy.

Concerned citizen,
