Subject: Quail Brush Application

Dear Mr. Solorio:

This project, the Quail Brush project (1-AFC-03) should not be approved. It would require redesignation of Open Spaces to Industrial. It is located adjacent to Mission Trails Regional Park - a lovely park used by a great number of people for an outdoor experience and wholesome recreation.

An energy plant should not be built next to schools and parks. There is plenty of space in more remote locations if the project is even deemed necessary for San Diego - which is debatable.

Please do not pursue this toxic project in it's current location any further.

Thank You;

Ellen Shively
San Diego
