"CEC record-Docket #11-AFC-03"  
 Quail Brush Power Generating Siting Case

3/17/2012

Mr.Solorio and Commissioners,

My name is Charles Ringer Jr and I am writing this letter to voice opposition to the proposed Cogentrix Quail Brush Generating Plant with 1 engines and 11 smoke stacks in such close proximity to open space,schools and a large population.

By now you know the proposed power plant site is at the edge of the Mission Trails Regional Park (MTRP)which was given to the city of San Diego by the federal government to be kept zoned as Open space.

So that should be the end of any attempt of a zone change to Industrial use. But no there are those who do not live here and wish to change the zoning, which will forever effect the area in a negative way.

The MTRP is the second largest in the nation and is home to many endangered plants,birds ,butterflies.

The park is visited each week by hundreds of people from all over San Diego including my family and I to enjoy the natural beauty , the trails and peacefulness it offers.

The noise,air pollution,the visual pollution along with traffic and construction on the 26 acre site will change the environment forever.

The Quail Brush Power plant site is also at the gateway to the city of Santee.A city with a population of 60,000 plus residents who will feel the effects of the air pollution,noise and traffic.

The little league park and West Hills high school and a residential neighborhood is across the road and down wind of this proposed Quail Brush power plant.

Respectfully,  
 Charles Ringer Jr.
