Subject: Quail Brush Generation Project

My name is Tammi Royales and I am a resident of Santee, CA. I am opposed to a power plant being built adjacent to the Mission Trails Park and the city of Santee. Here are my valid reasons:

1. The proposed plant will be located right next to West Hills High School which will greatly impact their health.
2. The proposed plant will be located right next to a city park and baseball/soccer fields where very young children and families gather for sports, exercise, and celebrations.
3. The proposed plant will be located right next to a community trails that is enjoyed by all who live in San Diego County. This is also a sensitive area to plant and animal habitat.
4. My property value, which has already plummeted, will take another hit (a permanent one at that) if this is built.
5. What an eyesore this will be. The DOT did an amazing job with the 52 in keeping with the look of the area, planting foliage to create a more pleasing environment which you now want to ruin.

While I understand that it is important to improve upon technology and fill the need for power in San Diego, I don't care for the fact that they want to put a plant that will affect the residents of Santee. Is there not open areas in La Jolla or the PQ area that will work? You are discussing a power plant that the residents of San Diego will not even notice, unless they travel to Santee.

The Santee city government has worked very hard the last few years to improve the quality of life in Santee. We are the gem of East County, bringing in business, maintaining a low sales tax rate, and having quality schools. All that has been accomplished will be ruined by this polluting power plant within our city limits.

I ask you to think about your families when you make this decision. Would you say yes if they wanted to build next to the school your children attend, the park where you play, your home where you live? If you answer no to any of these, then you have your answer about approving this request.

Very Respectfully Yours,

Tammi J. Royales
