The "Quail Brush Power Plant" (11-AFC-03) would violate numerous land use plans/regulations and would be an unacceptable eyesore and health risk to Santee and Tierrasanta. High noise levels would destroy the tranquility of a regional asset -- Mission Trails Regional Park. It must be rejected.

It's hard to believe that power companies and local government would want this project in that particular spot. Get it out the public does not want it. We don't need it!

Sincerely,
