**Subject:** CEC record □ Docket #11 □ AFC □ 03 Quail Brush Power Generation Siting Case

Please add me to a list of concerned citizens opposing the Quail Brush Generation Plant on the grounds that the proposal is a very poor use of land.

The proposed plant is inconsistent with many of the City of San Diego's laws, ordinances, regulations, and standards (LORS). The project conflicts with: the East Elliott Community Plan designating the site as Open Space, the General Plan designating the site as Park, Open Space, and Recreation, and the Municipal Code designating the site's zoning as single-family residential (RS-1-8).

The proponents of the plant must obtain a community amendment, general plan amendment, and a rezone from the City of San Diego. The proposed project is also located within the City's Multi-Species Conservation Program (MSCP) Subarea Plan, with which is it incompatible. To make the project consistent with the Subarea Plan, the applicant would need to obtain from the City a boundary line adjustment of the Multi-Habitat Planning Area to exclude the project site.

The Taxpayers of San Diego County object to any further spending of California taxpayer dollars in pursuit of a project that violates so many key local land use provisions.

Additionally, the power plant siting threatens the well-being, health, recreation, natural beauty, property value, and quality of life of all San Diego county residents who use Mission Trails park or who live in the areas of Navajo, Tierrasanta, and Santee due to the site's proximity to parks, schools, and residences.

I urge the CEC to implement the No Project Alternative.

Thank you for you consideration of this important matter.
