**Subject: DOCKET NO. 11-AFC-03 QUAIL BRUSH GENERATION POWER PLANT**

I implore the Energy Commission not to approve the Quail Brush Generation Power Project. There are very few open, natural landscapes left in San Diego County. These areas are not only important to the animals but the people too. I will not get into the health and noise issues as I'm sure they will be brought up by others. I am concerned about the visual pollution this plant will create both for hikers, bikers, and people driving on the freeway.

Sincerely,

Francis
