**SUBJECT: GATEWAY GENERATING STATION (00-AFC-01C)  
APPROVAL OF PROJECT CHANGES – 40,000 GALLON WATER  
STORAGE TANK**

Dear Mr. Gawer:

In accordance with the provisions of Title 20, California Code of Regulations, section 1769(a), California Energy Commission (Energy Commission) staff reviewed your petition dated February 23, 2012, requesting a facility modification to install a new 40,000 gallon bolted carbon steel storage tank. The proposed tank would be 18 feet in height by 21.5 feet in diameter.

Staff determined that the petition meets the criteria of section 1769(a) (2), and mailed the enclosed "Notice of Determination" to the Energy Commission's post-certification project mailing list on April 4, 2012.

Energy Commission staff did not receive any public comments regarding this requested project change within the 14-day public review period as specified in section 1769(a)(2). Therefore, your requested modification to the Gateway Generating Station project is approved.

If you have any questions, please call me at (916) 654-4781, or contact me via email at [Craig.Hoffman@energy.ca.gov](mailto:Craig.Hoffman@energy.ca.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Craig Hoffman".

Craig Hoffman  
Compliance Project Manager  
Siting, Transmission & Environmental Protection Division
