DOCKET 09-RENEW EO-1
DATE <u>5-12-12</u>
RECD. <u>5-17-12</u>

May 12, 2012

California Energy Commission
Docket Office MS-4
Docket #09-RENEW EO-01
1516 Ninth Street
Sacramento, CA 95814-5512

Gentlemen,

As a member and proponent of Land Speed Racing, I am compelled to request that you reconsider and withdraw the proposed project, to use the historical El Mirage Dry Lake as a possible site for Green energy.

We are killing our living dessert with Green energy for a few hundred Kilowatts of energy when we are now installing hundreds of Gigawatts of Solar energy on our Roof tops in the built environment here, in Southern California . There is a better way.....

There are at present, a lot of areas in our Southern California Desert being considered, so why include the small recreational area of El Mirage Dry Lake?

Why is the BLM bending over backwards for these Energy developers? Is it the money, tax dollars that stimulate these projects?

We have seen from the early 90's to present, many of these projects have failed or gone bankrupt or just been futile experiments. Please preserve the EL Mirage Lake Bed for our present and future generations.

The Lake Bed is historical. As an SCTA member, we have used and Taken Care of this sacred place since the early 1930's. So please reconsider and withdraw this Docket.

Sincerely,
Max Kranz
