1516 Ninth Street, Mail Station 29  
Sacramento, CA 95814-5512

Honorable Commissioners:

At a recent meeting of the Crest-Dehesa-Granite Hills-Harbison Canyon Subregional Planning Group discussion was held, and action taken in reference to the Quail Bush Genco Power Plant being proposed for installation on the westerly edge of the city of Santee at Highway 52 and Mast Blvd.

On a motion by member Pat Ulm and a vote of 9 ayes, 0 noes, and 1 abstention with 1 seat vacant and 4 members absent, the P.G. respectfully urges your commission to oppose the installation of this project for the following reasons:

1. It will increase regional air pollution, thereby negatively impacting the health of our Subregion's residents.
2. This project is too close to schools.
3. It will likely at times decrease visibility and affect operations at the Gillespie Field airport.

Thank you for your attention to this matter.

Wally Riggs, Chairmen
