RE: Repeated Confidential Designation pursuant to Section 2504(a)(4) of Title 20,
Rio Mesa Solar Electric Generating Facility (11-AFC-04)

Dear Mr. Babula:

Pursuant to Section 2504(a)(4), Title 20 of California Code of Regulations, Sierra Research, Inc., consultant to Rio Mesa Solar I, LLC and Rio Mesa Solar II, LLC (collectively, the "Applicant"), hereby submits this request for repeated confidential designation for a Microsoft Excel spreadsheet submitted as a supplemental response to CEC Staff's Data Request Number 16 in the aforementioned proceeding.

By letter dated January 3, 2012, the Executive Director approved the initial request for confidential designation regarding a Microsoft Excel spreadsheet containing proprietary equations, formulas, and calculations used to produce air quality data and analysis for the Rio Mesa Solar Electric Generating Facility. As a supplemental response to CEC Staff's Data Request Number 16 due to the recent Environmental Enhancement Proposal for the Proposed Project, it is necessary to submit the enclosed revised version of this Microsoft Excel spreadsheet. Because the equations, formulas, and calculations contained in the enclosed spreadsheet are substantially similar to those granted confidential designation on January 3, 2012, the Applicant is submitting this request for a repeated confidential designation for this material.

We are enclosing five copies of the confidential information. Please feel free to contact me at 916-444-6666 should you have any questions or require additional information. Thank you for your consideration of our request.

Sincerely,

Gary Rubenstein
Senior Partner
