AUG 06 2012

To DOE

7-19-12

I've lived in Tupman 40 years
My children, grandchildren, &
greatgrand children live here, too
I am afraid of the gases,
chemicals, ammonia, and toxics
associated with HECA.

They will be lethal for
my family and for everyone
living around it. Our
lives are at risk if there is
an accident.

Please don't permit HECA
