Subject: El Segundo Power Plant 12-CA1-03 COM

Dear Ms. Dyas, Compliance Manager:

I am in support of the complaints that were filed with the Energy Commission regarding violations of the both civic law and planning and contract law by NRG, particularly the noise violations at night that disturb the peace and health of Manhattan Beach taxpaying home owners and the issues my husband already addressed with you in his letter. Additionally, please include on your list another complaint addressed with DYNERGY on numerous occasions since the Fall of last year, uncovered dirt piles along the fence line of 45th Street and those located on the grounds north of the Chevron gas station. The ocean breezes which the citizens enjoy have also blown the uncovered dirt piles the NRG property up 45th Street and onto the property of homeowners which not only enters homes through screens, but splatters on windows making our visual ability out our windows non-visible. This has resulted in a costly increase of professional window cleaning sometimes every two weeks.

Thank you Mary.

**Sincerely,
Doris Nickelson**
