Subject: Quail Brush Power Plant
Categories: Ready to Docket

Dear City Council members, Mayor Sanders and CEC Commissioners,

I am very concerned over the many negative impacts this project would have on our community. I suspect the people proposing this energy plant are very interested in making some cash and are not interested at all in the extreme burden their little enterprise will be putting on our land and our community. I strongly urge you to uphold the Planning Commission decision that rejected the initiation of changes to "LORS" requested by the Quail Brush Power Plant application. The proposal fails to meet city criteria required for initiating amendments.

Our community expects officials to ENFORCE our Laws, Ordinances, Regulations and Standards (LORS) and the City of San Diego General Plan policies. A decision to deny initiation protects San Diego and helps move the energy industry toward sustainable alternatives such as distributed roof-top solar or grid-scale energy storage.

Sincerely,

Adrian van Ravesteyn
