Subject: El Segundo Energy Center Complaint: Agreement to waive 30 day hearing requirement

Hearing Officer Kramer:

El Segundo Energy Center, LLC and the Complainants, Michelle Murphy and Robert Perkins have agreed to waive the requirement in 20 CCR §1237 that the Commission must act to hear the complaint within 30 days of the staff report. They have agreed that complaint can be heard on the regularly scheduled business meeting date of September 12. Doing so allows the State of California and the Commission to avoid the expense and inconvenience of a special meeting for this complaint, and allows the parties additional time to attempt to resolve outstanding issues.

While there are other interested parties, who are CCed on this email, including parties who have petitioned to intervene in the complaint, I believe that the Complaining party and the project owner should have the ability to waive this requirement and allow the Commission to decide to move the hearing of the Complaint to the September 12 business meeting.

Very best,
 John McKinsey,
 Stoel Rives, LLP

Subject: El Segundo Complaint meeting info

TO: Persons Interested in the EL SEGUNDO POWER REDEVELOPMENT PROJECT COMPLAINT (12-CAI-03)
 FROM: Paul Kramer, Chief Hearing Adviser, California Energy Commission
 SUBJECT: Notice of Energy Committee Business Meeting re El Segundo Complaint

I write to notify you that the complaint filed by Michelle Murphy and Bob Perkins on July 3, 2012 will be considered by the Energy Commission on August 29, 2012, at 1:30 p.m. in Sacramento. Further information about the location,

participation by telephone and other aspects of the meeting is contained on the attached agenda. (Caution-the WebEx broadcast described in the agenda is listen only; if you want to speak to the Commission, you must call in via the 888 number instead.)

I'm sending this message to the Complainants and other interested persons such as Commission staff, the project owner, and those who have petitioned to intervene. In addition, it is sent as a courtesy to those persons who have submitted comments in the case to this point; future notices may not be so widely distributed and persons in that category should subscribe to the project listserv (<http://www.energy.ca.gov/listservers/>) to assure that they receive future notices and other information regarding the project.
