My letter to the San Diego City Council

RE: Sycamore Landfill Expansion, Project # 5617
Quail Brush Power Plant, Project # 270282, CEC 11-AFC-03

Dear San Diego City Councilmembers,

Thank you for taking the time to listen carefully to the public comment with regards to the Sycamore Canyon landfill. You heard our concerns and asked great questions of the staff. Which cleared up some of the misconceptions and validated some of our concerns. Although I personally was not in favor of the votes, I do understand the reasoning behind them. However, I am not confident with the answers given with regards to the 24-hour operation or the traffic concerns.

That being said, I do feel confident that as a Council member you took every opportunity to explore the current facility and research the applications and effects on the immediate environment, air quality and community. I thank you from the bottom of my heart for those extended efforts.

I would like to ask each of you to look into the future and the overall cumulative effects on us all as citizens with respect to your upcoming discussion on the Quail Brush Power Plant. I am confident you understand how devastating a project of this type will be to our children, elderly and medically compromised citizens.

IF this so called peaker plant is as needed as Cogentrix and SDG&E claim, then make them prove it to the CPUC and CEC. Please support the well thought out decision made by the planning commission and JUST SAY NO to the purposed Quail Brush power plant.

Be a good neighbor and give Santee a break.
PLEASE, PLEASE, PLEASE JUST SAY NO !!!!

Thank you again for all you do each and everyday for us as citizens and for your individual communities.

Sonja Ramos
