**Cc:** Solorio, Eric@Energy

**Subject:** Quail-Bush disaster

To Whom It May Concern: Trust the Planning Commission of San Diego. Quail-Brush Power Plant is not needed or wanted. Please do not overturn the decision that the Planning Commission made after months of input from both sides, in just one day. Their decision was not made lightly. Choose to represent the people not the interests of an out of state corporation. Thank you. Margie Logue

CEC Docket #11-AFC-03 PS

The fire in East County could easily happen at the Quail-Brush site. They have posted no plans on what to do with the up to 26,000 gal of oil they have if a fire hits the site. Do you want responsibility for that kind of destruction? Why would you even open the door to them?
