## Request for Public Comments

On February 16, 2012, as part of the *2012 Integrated Energy Policy Report Update (2012 IEPR Update)*, the California Energy Commission's IEPR Lead Commissioner held a public workshop to receive public comments on estimates of combined heat and power technical and market potential. After the workshop, Energy Commission staff prepared a paper that analyzes California's existing portfolio of combined heat and power plants, how that capacity was reached, and how future policy goals for combined heat and power may be achieved. We are seeking public comments on that staff paper.

The staff paper is available online at:
