Hi

From:
Greenkraft Inc
Our comments are:

1. Please allocate the incentives on CNG vehicles per last PON's with a minimum of 20k incentives since CNG is abundantly available and is a viable fuel for transportation. More funds need to be allocated for 14,000 LBS GVWR and up to 33,000 LBS GVWR since there is a big market for these vehicles.
2. We would like to see the CEC allocate separate manufacturing funds for other alternative fuels besides electric such as CNG. The last few manufacturing funds have been allocated to electric only and electric is not yet able to be produced in large quantities for the mass market, and CNG is abundantly available and ready now to be used in mass quantities.
3. CEC needs to allocate funds in the CNG and LPG. CNG stations are available now and more are coming up and can be used if there were incentives for vehicles.

Thanks
Sosi bardakjian
