

Public Comment regarding the proposed Quail Brush Generation Project

I would like to make the following written comment. I understand that my comments will be docketed and may be posted on the Energy Commission's website and be available to the public.

- ① As the Audubon society expert pointed out, weeds will be brought in by crews, roads + trucks, thus destroying native plants
- ② San Diegans need to conserve and explore solar, wind, + WAVE generation - NOT more polluting petroleum-based power.
- ③ The ^{Smoke} Turb will RUIN the quality of life for the animals in the park + for the people who use it as a refuge.
- ④ This power is too expensive, and Backwards and not needed.
