Subject: CEC record-Docket #11-AFC-03 Quail Brush Power Generation Siting Case

I request on behalf of my family and my neighbors that the CED stop the project and instead choose the "No Project Alternative" that will uphold the City of San Diego's zoning laws.

Our neighborhood will be adversely impacted by fire danger, air pollution, noise, decreased property values, and visual blight. The QBGP siting threatens the health, recreation, natural beauty, quiet, and quality of life of all San Diego County residents who use MissionTrails Regional Park (MTRP) and those who live, work, and go to school in the adjacent communities.

Mission Trails Park is a place for quiet enjoyment of Nature, a place to recuperate from the daily grind, and a place to contemplate our closeness to Nature. No where else in San Diego do we have such a place of such quiet beauty. This would all be destroyed by the Quail Brush Power Generation Project.

Please consider those who live and use this wonderful jewel of a park.

Best regards,

Jennifer Spencer
