Subject: CEC record - Docket #11 - AFC - 03 Quail Brush Power Generation Siting Case

I oppose this power plant in this area near Mission Trails Park. There is no other area that is near our city that has the natural beauty and open space. we have already given massive areas of our city to housing. Please preserve the few places we have left, without visual pollution and destruction of open space sight lines. I visit the back areas of this park often.
